SECTION III – Hazard Identification

Flammable. Highly Flammable (EU). Toxic. Methanol is a human poison by ingestion. Exposure to Methanol may result in severe skin and eye irritation, blindness and narcosis. It can be absorbed through the skin. Target Organs: Eyes. Kidneys.

SECTION IV – First Aid Measures

Eye Contact: Flush eyes with copious amounts of water for a minimum of 15 minutes and transport to a medical facility.

Ingestion: Do not induce vomiting. Give victim large quantities of liquid and transport to a medical facility.

Skin Contact: Wash affected areas with copious amounts of water and transport to a medical facility.

Inhalation: Remove to fresh air. If breathing is disturbed, give artificial respiration while transporting to a medical facility.

SECTION V - Fire Fighting Measures

Flash Point: 52°F (11°C) (Methanol)

Method Used: Closed Cup

Flammable Limits

LEL: 6.0% UEL: 36.6% (Methanol)

Extinguishing Media: Dry chemical, carbon dioxide or Halon extinguisher

Special Fire Fighting Procedures: Wear SCBA and protective clothing to prevent contact with skin and eyes.

Unusual Fire and Explosion Hazards: Flashback along vapor trail may occur.
SECTION VI- Accidental Release Measures

Evacuate area. Remove all sources of ignition. Use inert absorbent to pick up all spilled material. Transfer to a suitable waste container with non-sparking tools. Wash spill site with appropriate cleaning agent to remove residual traces of spilled material.

SECTION VII- Handling and Storage

Handling: Do not breathe vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged repeated exposure. Wash thoroughly after handling.

Storage: Store in Frazier. Keep container closed. Keep away from ignition sources.

SECTION VIII- Exposure Controls/Personal Protection

As appropriate to quantity handled

Ventilation - Local Exhaust: Use with forced ventilation.

General Mechanical: Normal laboratory air exchange.

Special: N/A

Respiratory Protection: NIOSH approved cartridge type respirator with organic vapor cartridges recommended.

Eye Protection: Safety glasses with side shields or chemical safety goggles

Protective Gloves: Non-permeable protective gloves.

Other Protective Clothing or Equipment: Lab coat

Work/Hygienic Practices: Only experienced personnel should be allowed to handle this material.
