

### Tornado Safety Plan and Recommended Safe Zones for the PCSP

During a severe weather event, the following actions should be taken:

- Move away from windows and move to an interior room on the 1st floor.
- Most stairwells would be a good location (try to get as close to the bottom floor as possible).

The good news about the PCSP (formerly Frampton Hall) is that it was built many years ago and is a solid concrete structure. We just want to specifically point out some of our recommended “safe zones”. As in the case of a fire, it is best to close the doors as you leave and close the doors around your safe zone. Please do not lock the doors in the safe zone. Also, never pull the fire alarm during a tornado emergency.

Presbyterian College Employees and students will receive information through emergency communication methods such as the RAVE Alert Emergency Notification System when a tornado warning is issued by the National Weather Service. Note: A tornado warning means that a tornado has been spotted or indicated by weather radar in the area.

#### Recommended Safe Zones in the PCSP

<u>Occupants of</u>	<u>Safe Zone</u>
Dean’s Administrative Area	The Dean’s bathroom and the work/copy room in the Dean’s administrative suite area
Admission and Front Desk Area/Lobby	Admissions storage room
Second Floor Faculty Offices/Spaces	Center Stairwell that exits to front lobby
Third Floor Faculty Offices/Spaces	Back stairwell by elevator
Lecture Hall 104	The two bathrooms adjacent to 104, work/copy room in the Dean’s administrative suite area, and Dean’s conference room
Small classrooms (140, 141, 142, etc.)	Clinic/pharmacy area
Compounding Lab	Stairwell right outside of lab and bathrooms on first floor near media center
Community/Dispensing/Counseling Lab	Stairwell outside of far back door and Wellness Center area
Clinic/Pharmacy area	Stay put
Study rooms by practice lab	Stairwell outside of far back door and Wellness Center area
Hospital/sterile products teaching room	Simulation lab and sterile products laboratory*. *For the sterile products laboratory, please use the front and rear storage rooms. You may also sit underneath the see through panel with your back against the wall.
2 <sup>nd</sup> Floor conference rooms near PAS department	Stairwell beside student lounge (near where the student mailboxes are located)
Faculty research lab	Stairwell beside student lounge (near where the student mailboxes are located)
Lecture Hall 271	The media technology area, human patient simulation lab and sterile products laboratory.
