

Please go to [Login - USP Access Point](#)

Then go to the bottom of the screen under the grey Tutorial box and **Create a new USP Access Point account, if you do not have one.** Please note you need to use your presby email account and there is no Subscription Key to enter. Once you hit Submit, you will be asked to confirm via a link in your email.

After confirming your account, you may get a message saying this account is not valid. No worries, just logout and then use [Login - USP Access Point](#) to log back in.

Once you log back in, you should be brought to a page called **New USP-NF Online Dashboard.**

From there, please go to **your name at the top** and select **View Account Information** in the dropdown menu. This takes you to back to your registration page, from there **under the gear beside your name**, please select **Manage Subscriptions.**

USP Online Forums

- Pharmacopeial Forum (PF)**
[Pharmacopeial Forum \(PF\)](#) is the free online journal through which USP develops and revises standards for the United States Pharmacopeia and the National Formulary (USP-NF). Changes and additions to USP-NF standards are first proposed in PF to invite public review and comment. New issues are posted online every two months and the comment period is 90 days.
- Food Chemicals Codex Forum**
The [Food Chemicals Codex \(FCC\) Forum](#) is the free online resource through which USP develops and revises standards for the FCC compendium. Changes and additions to the FCC generally are first proposed in the FCC Forum to invite public review and comment. The forum is a twice-a-year event, going live June 30 and December 31. Each Forum has a 90-day comment period.

USP Online Resources

- Chromatographic Columns**
[Chromatographic Columns](#) is an online database featuring a cumulative list of chromatographic columns used to validate the chromatographic procedures in the United States Pharmacopeia and the National Formulary, Pharmacopeial Forum, Revision Bulletins, and Interim Revision Announcements since January 1980.

USP Online Standards

- Herbal Medicines Compendium**
The [Herbal Medicines Compendium](#) is a free, online resource providing standards for herbal ingredients used in herbal medicines. Standards are expressed primarily in monographs. A monograph contains general information including definition of the herbal ingredient followed with a specification. The specification contains tests for critical quality attributes with procedures and acceptance criteria.

[Save Changes](#)

Please select 4 options under **Free Resources** and hit **Save Changes**. Then log out via the dropdown menu under your name at the top.

Then log in again at [Login - USP Access Point](#) where you will see the Manage Subscriptions page again. At this point, open [New USP-NF Online Dashboard](#) in a separate tab. It will take just a minute but then the page will recognize you.

When it puts your name at the top, you can log out of the **Manage Subscriptions** page via the **dropdown under your name at the top** and close that tab.

From now on when you log in at [Login - USP Access Point](#) it will take you straight to the **New USP-NF Online Dashboard**.
